Manage your published content right alongside image reviews, video reviews and your own uploaded visuals for one single source library.

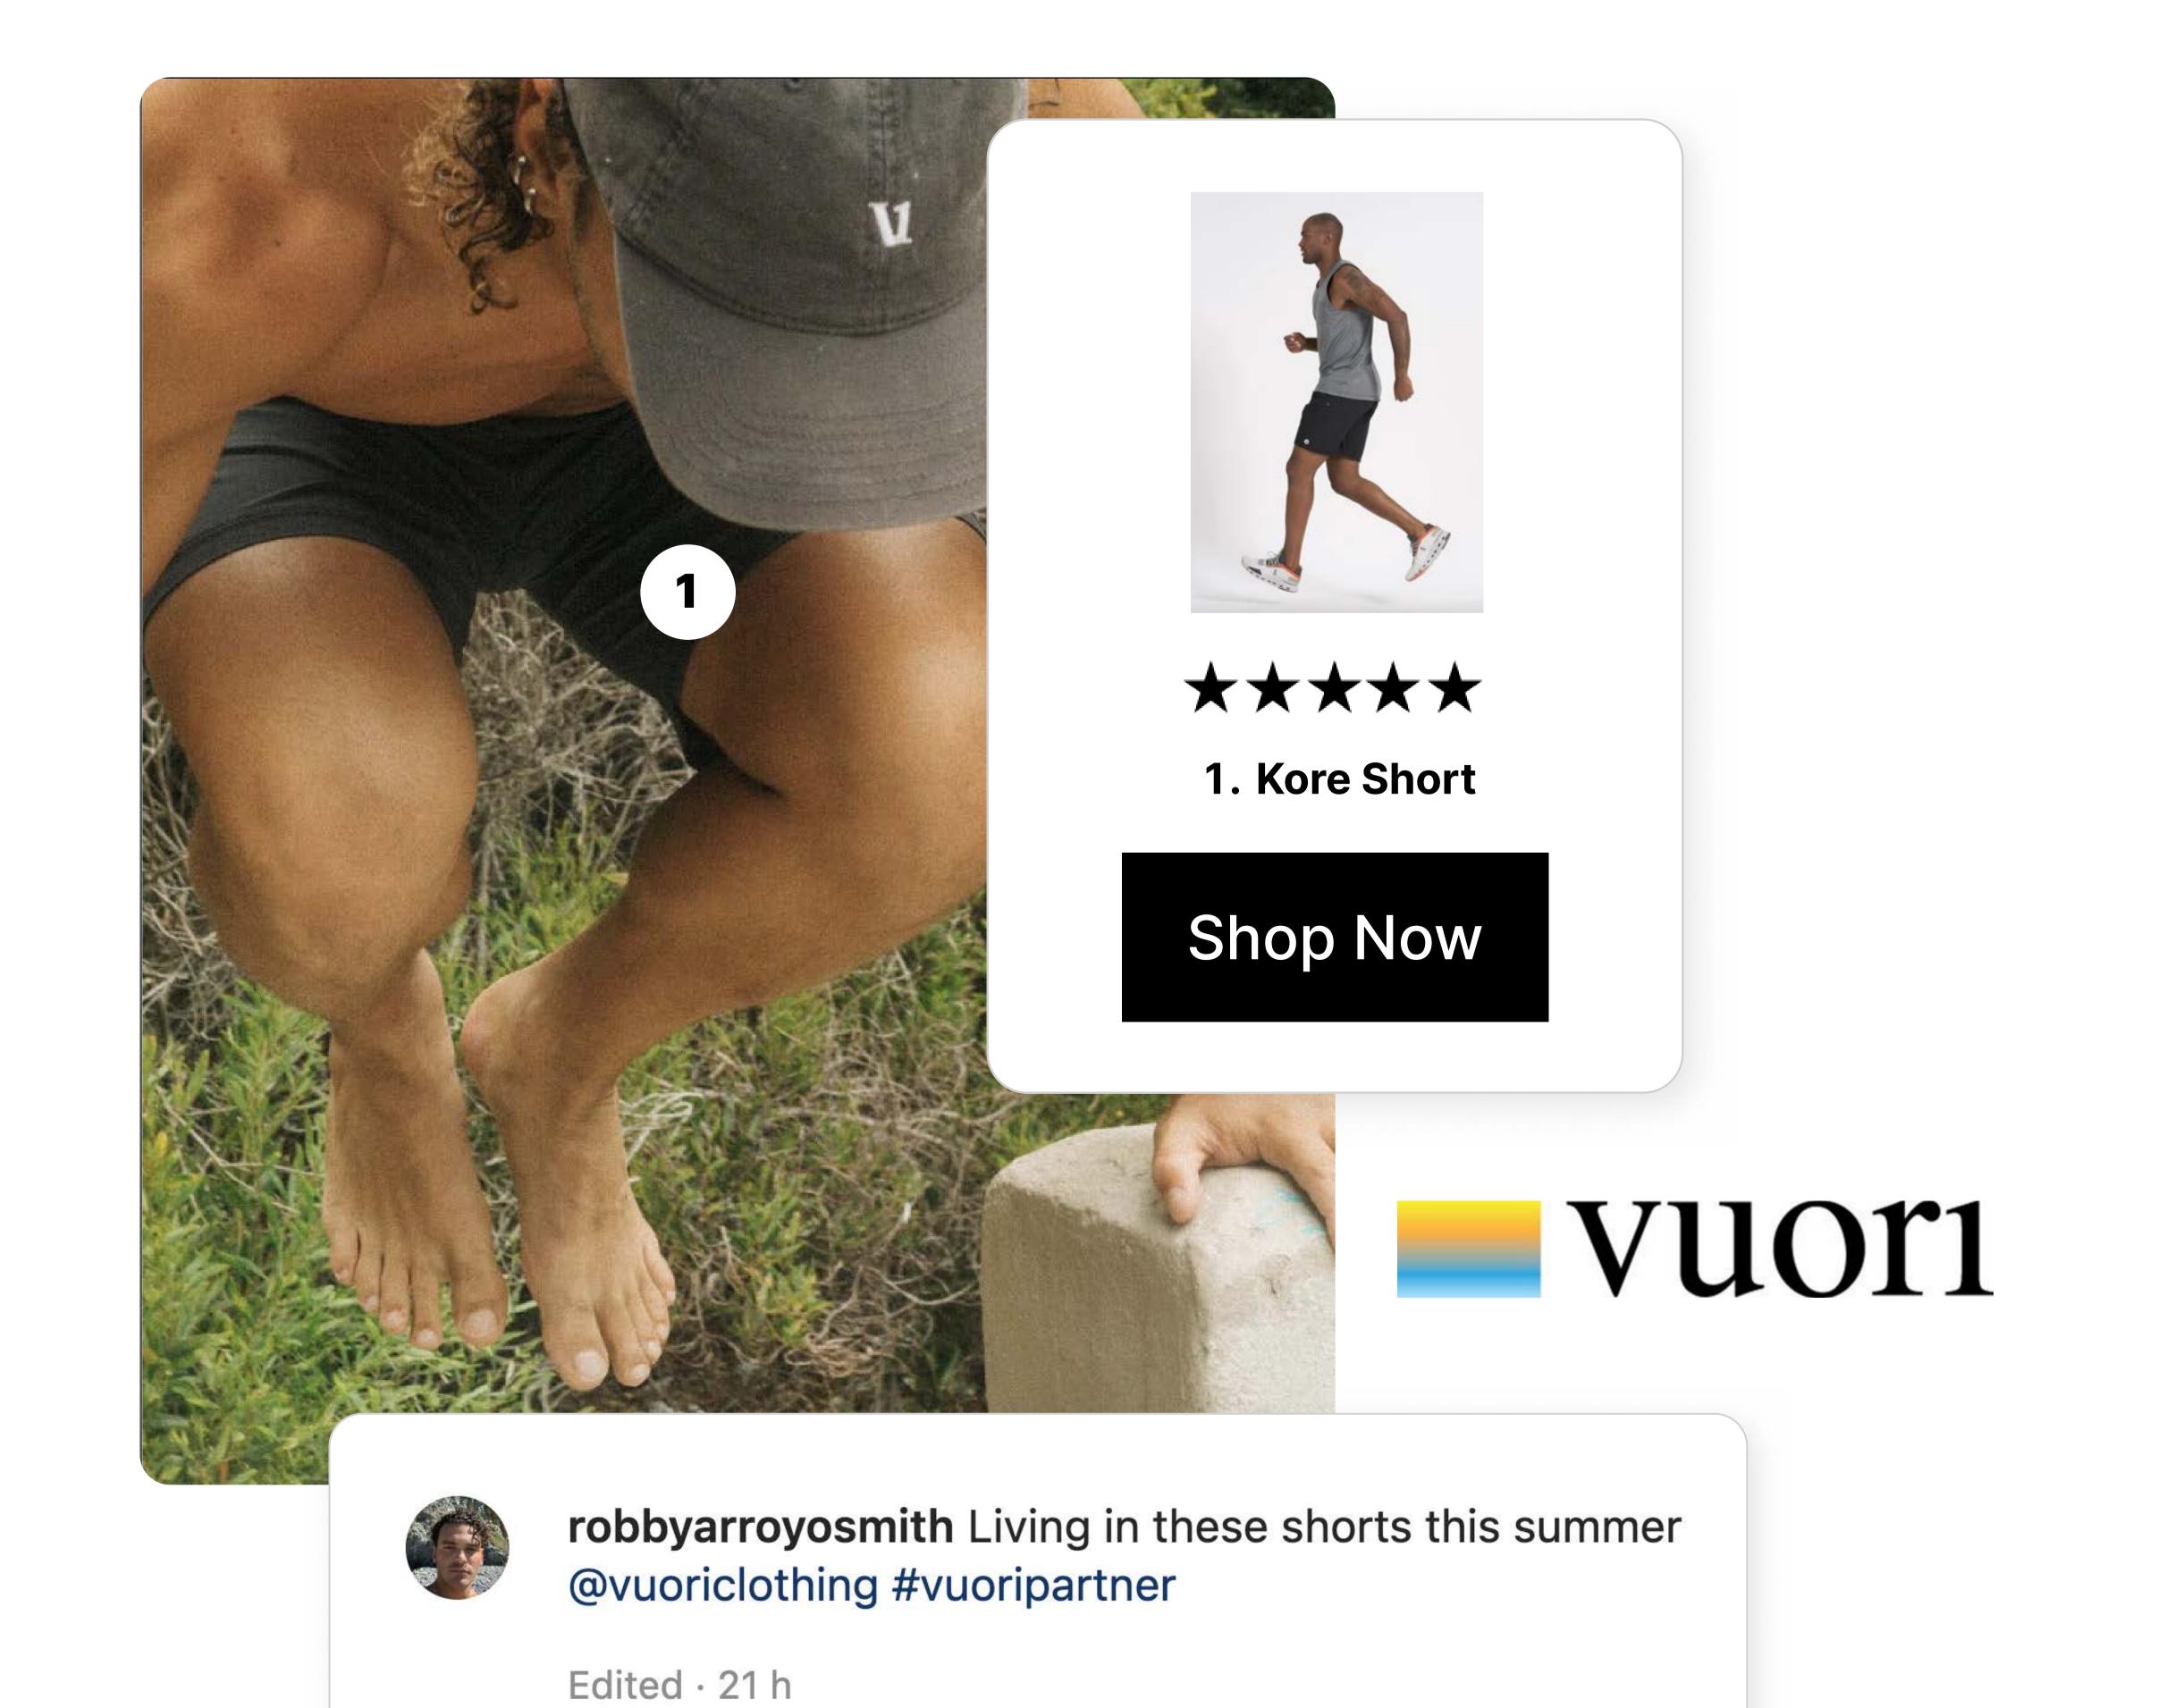

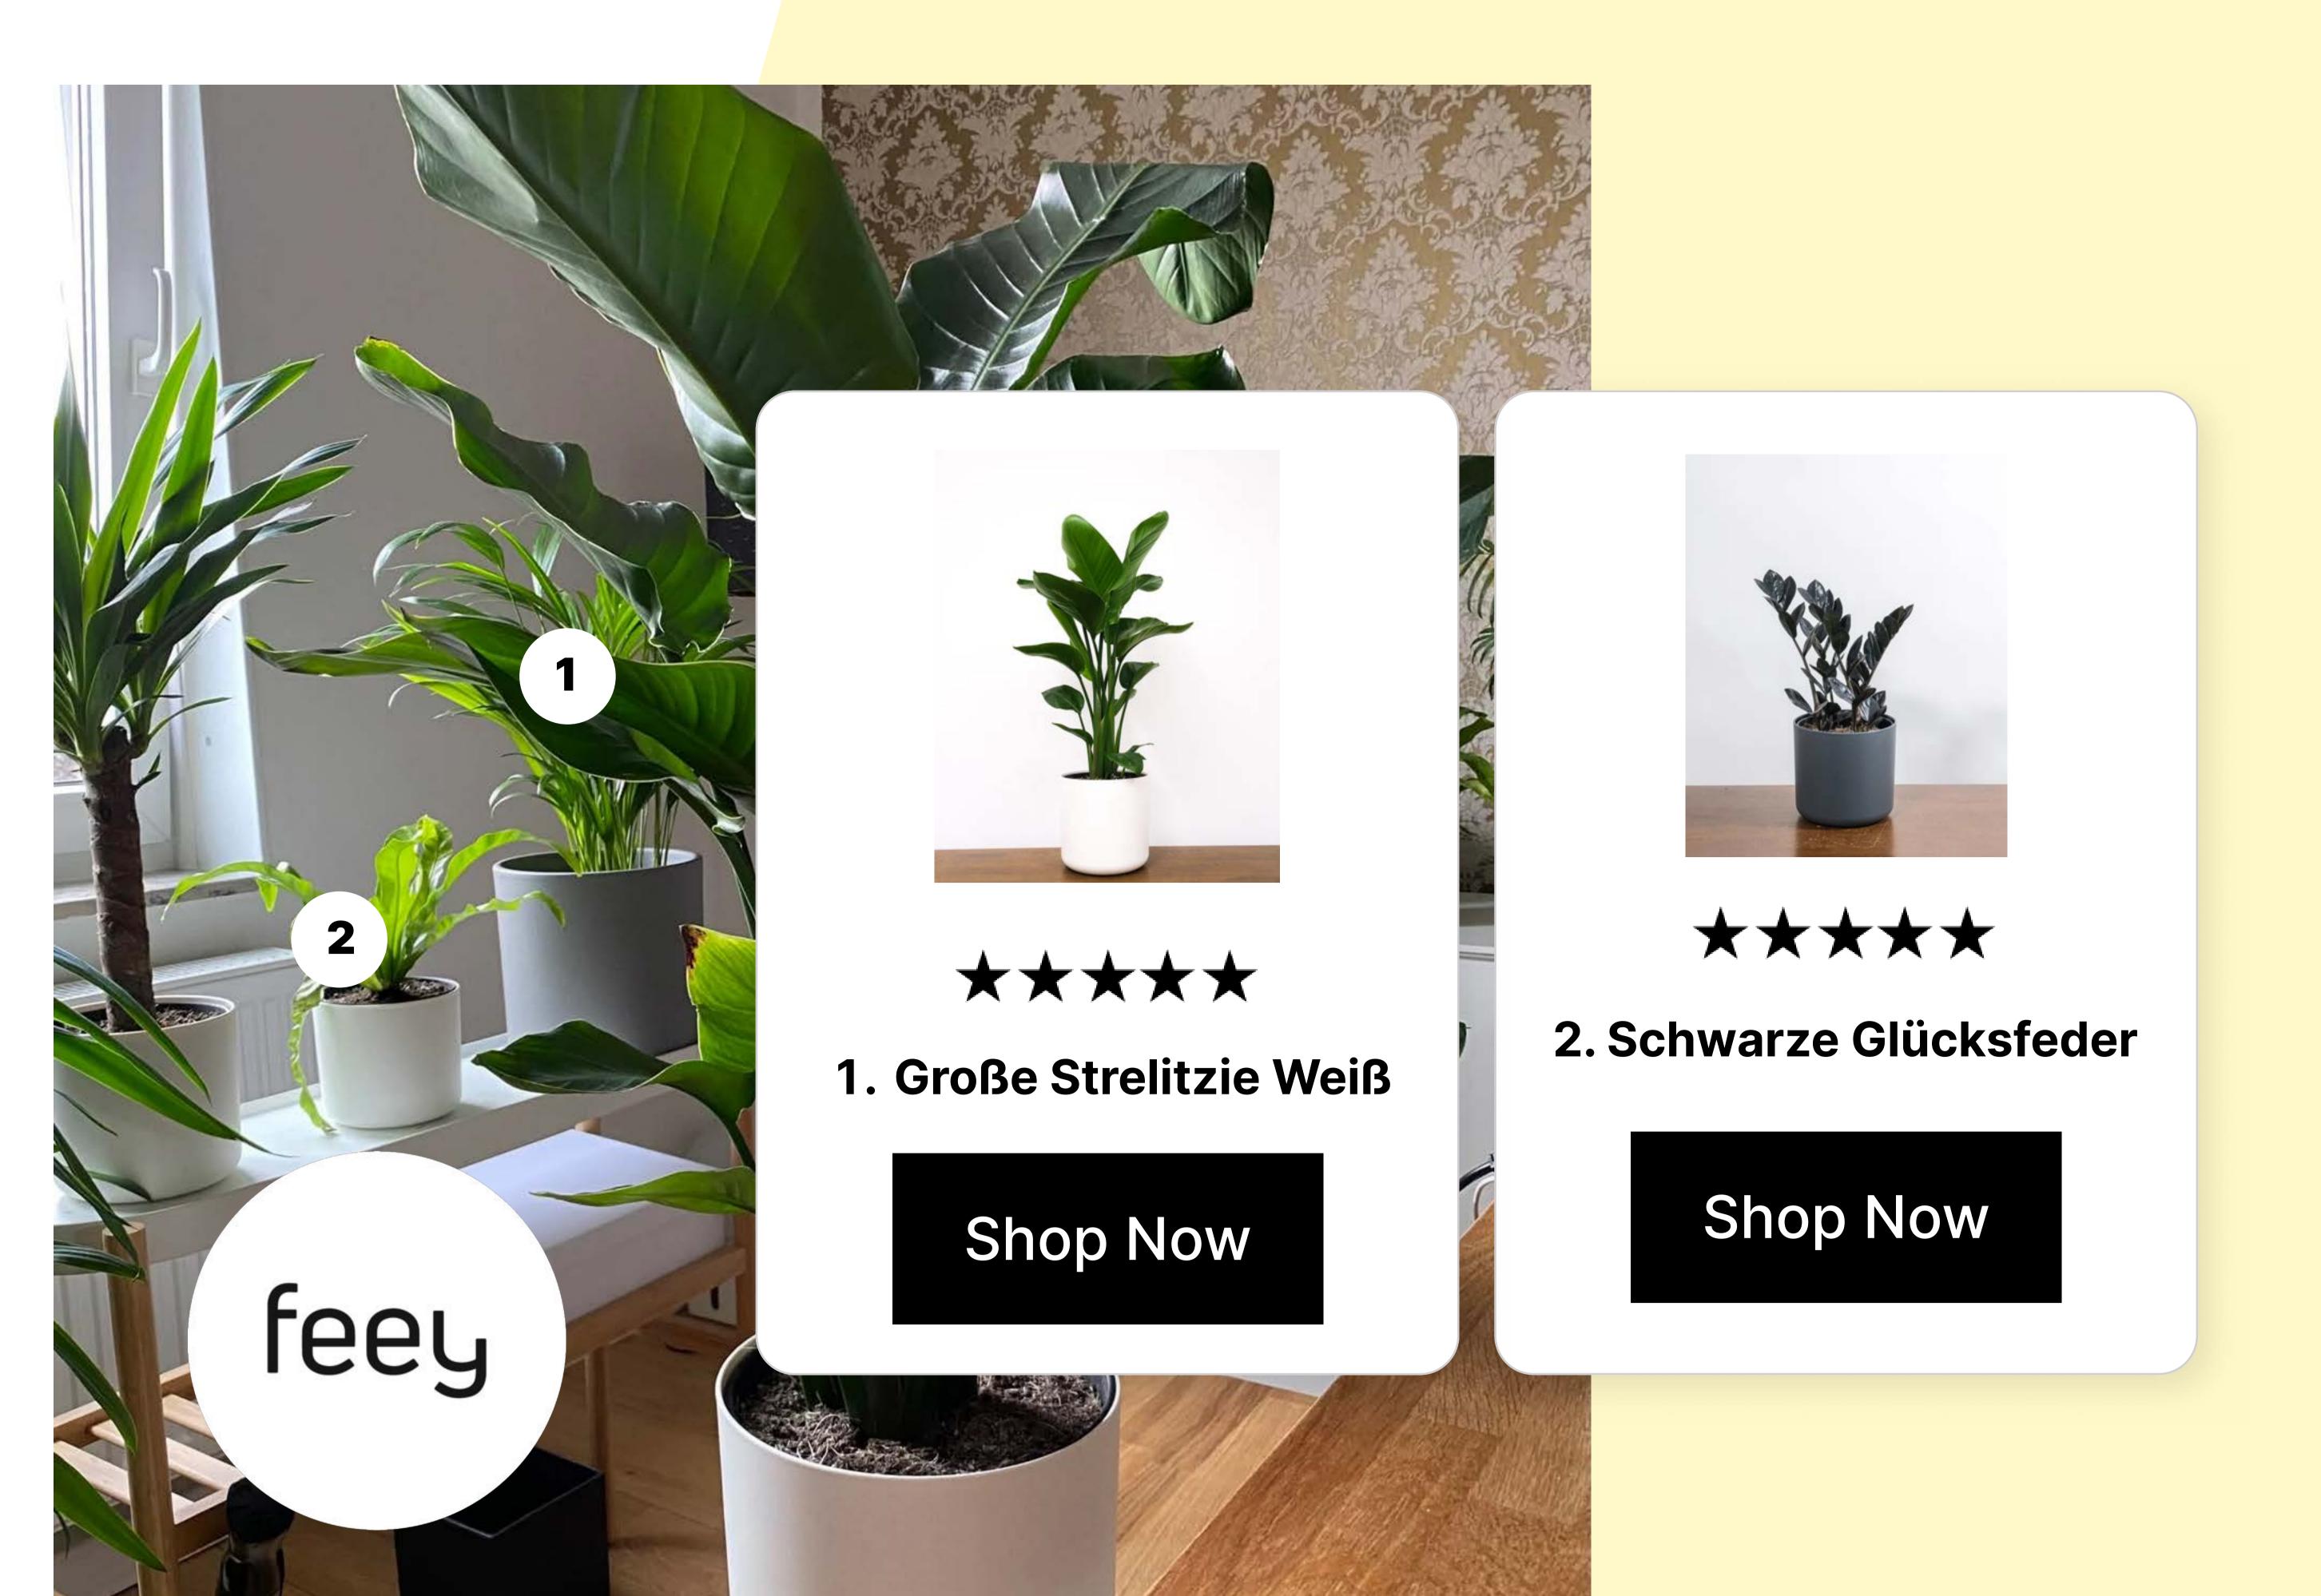

Shoppable Galleries.

Engage shoppers with your most valuable brand assets. Share authentic, visual content from happy customers to drive product discovery and inspiration.

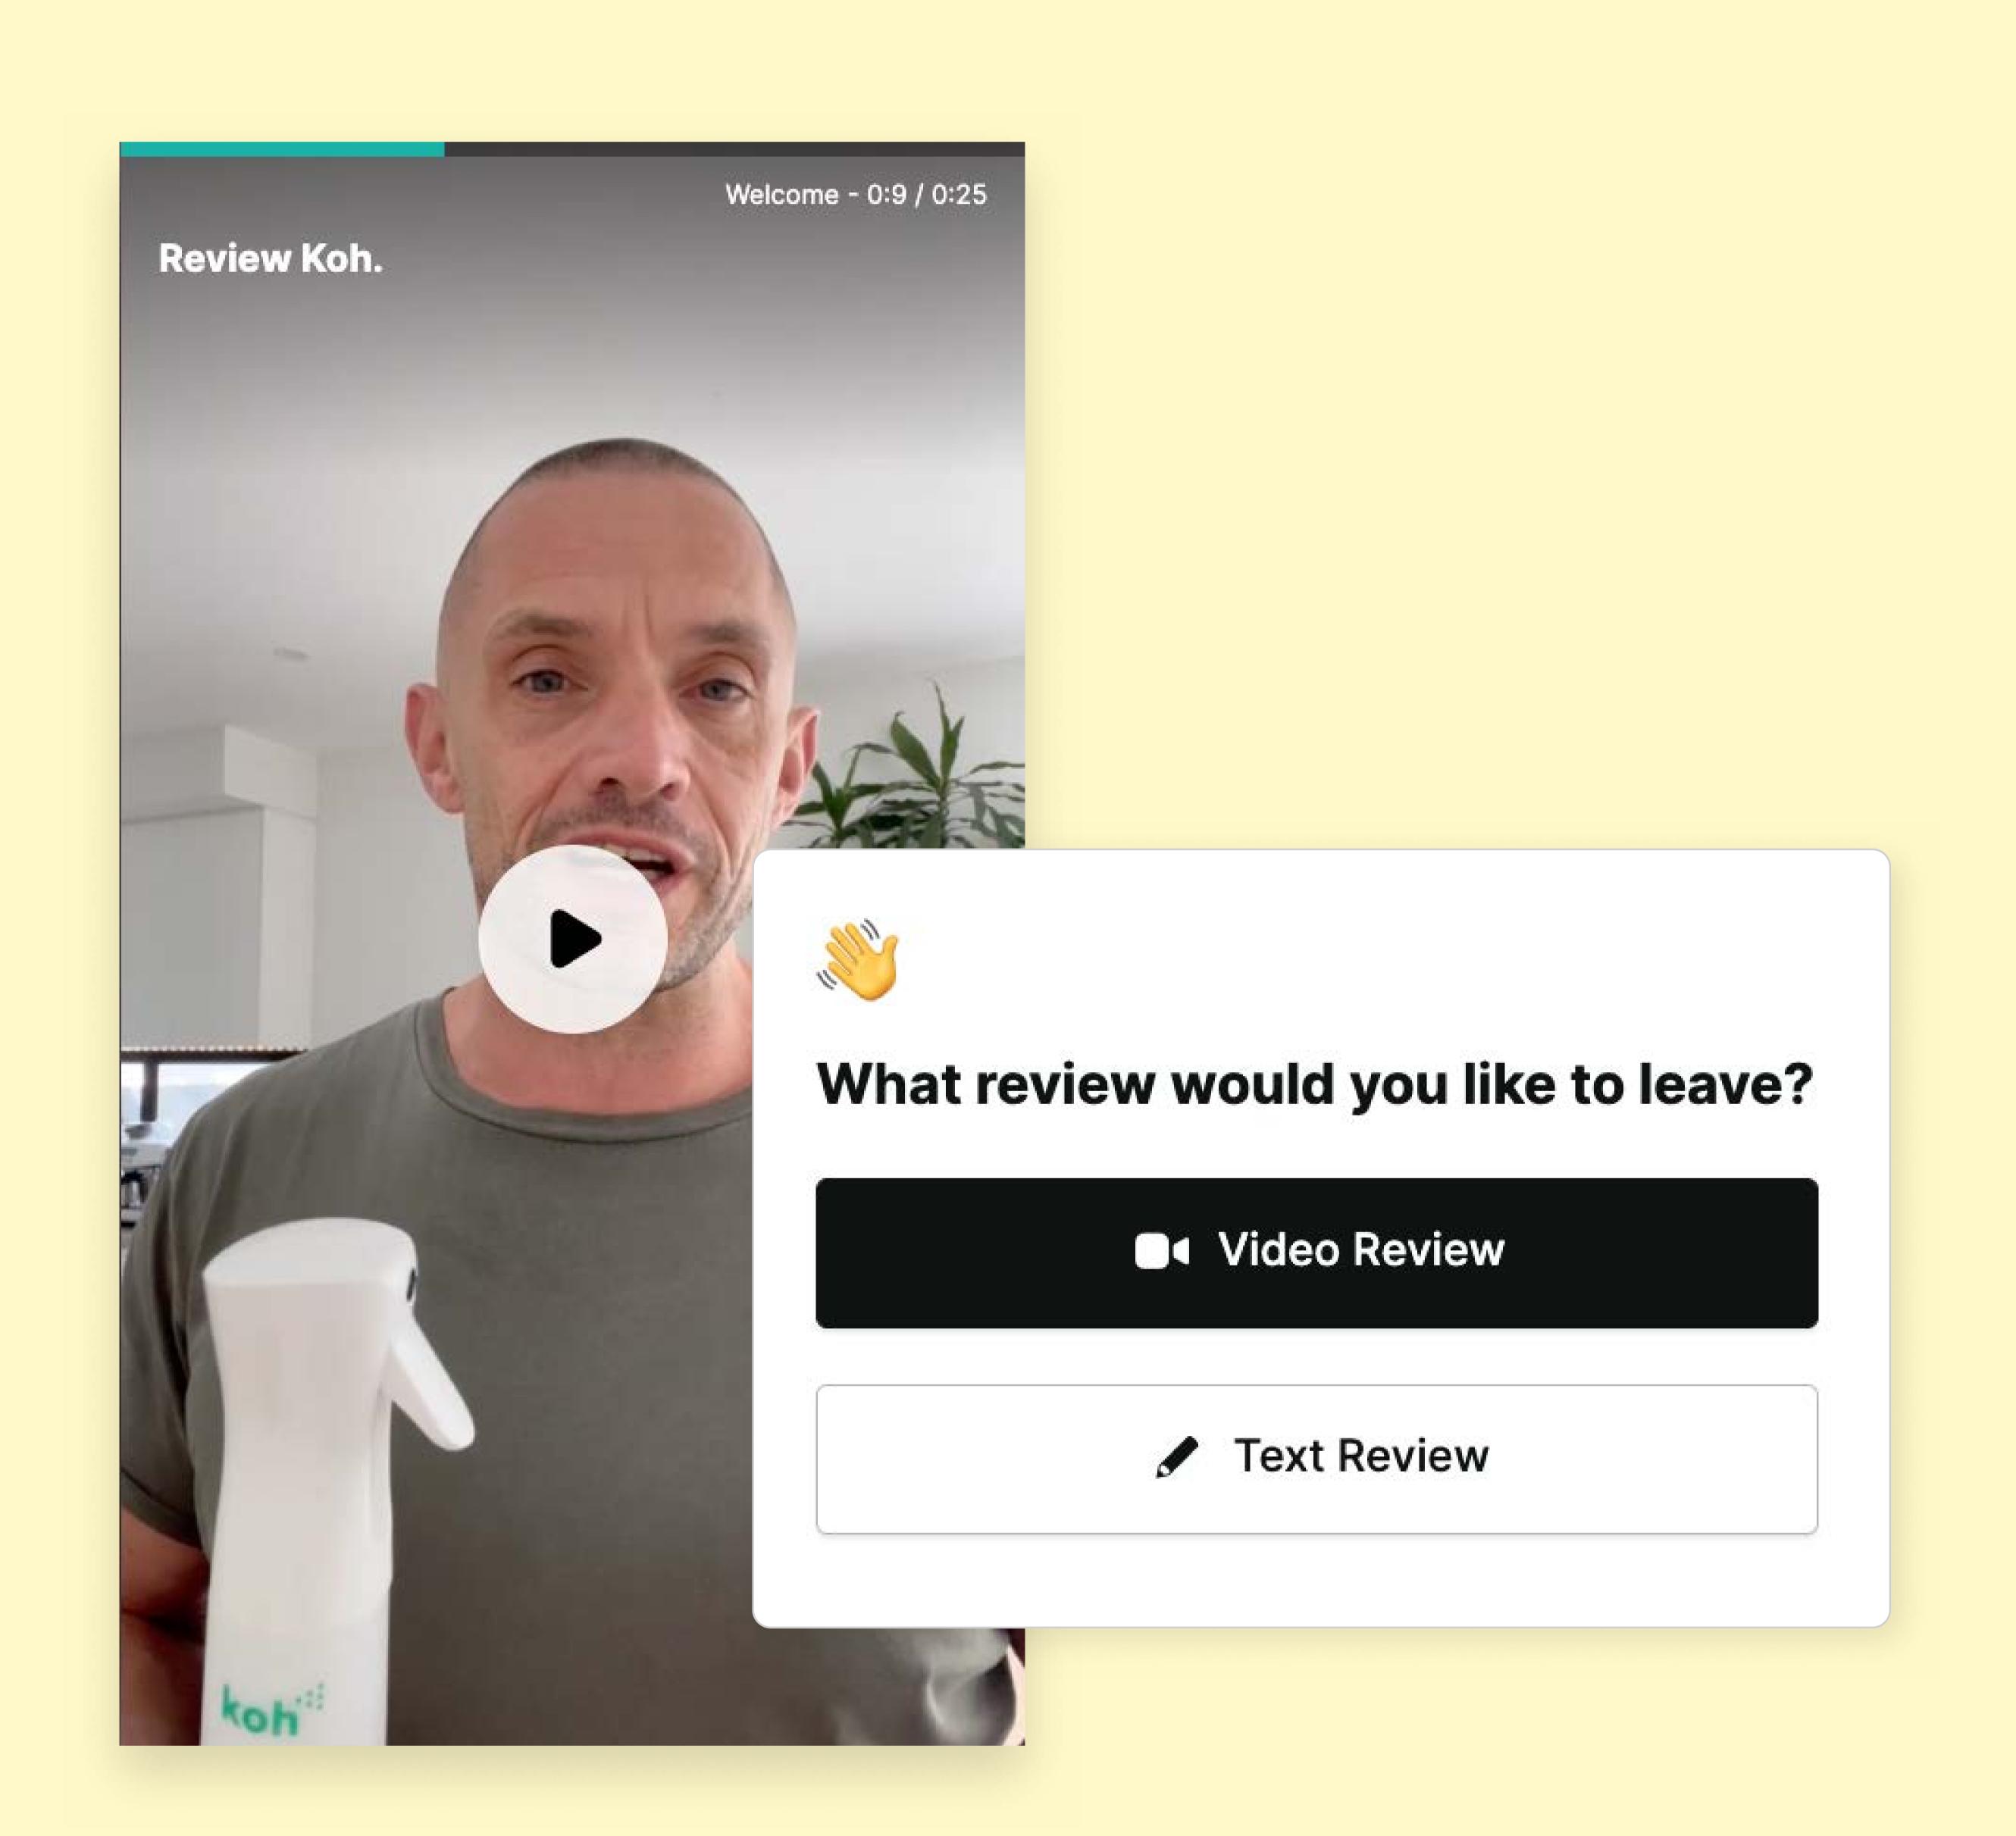

# Tag Multiple Products

You've earned their trust, now convert by giving customers instant purchasing power. Make it simple to shop the look with multiple product tags per image.

# Collecting UGC with review invites.

### Video First invites

Talk directly to the customer with review requests sent via video. Deepen the connection, improve their experience, and see more quality video content in return.

### Photo reviews

Optimise your UGC strategy by focusing on your biggest advocates. Use email flows to automatically request photos from 5\* reviewers.

"REVIEWS.io has added so much value to our review collection. We have the tools to collect more UGC than ever before, giving us real insight into our customers, how they use and where they use our product.

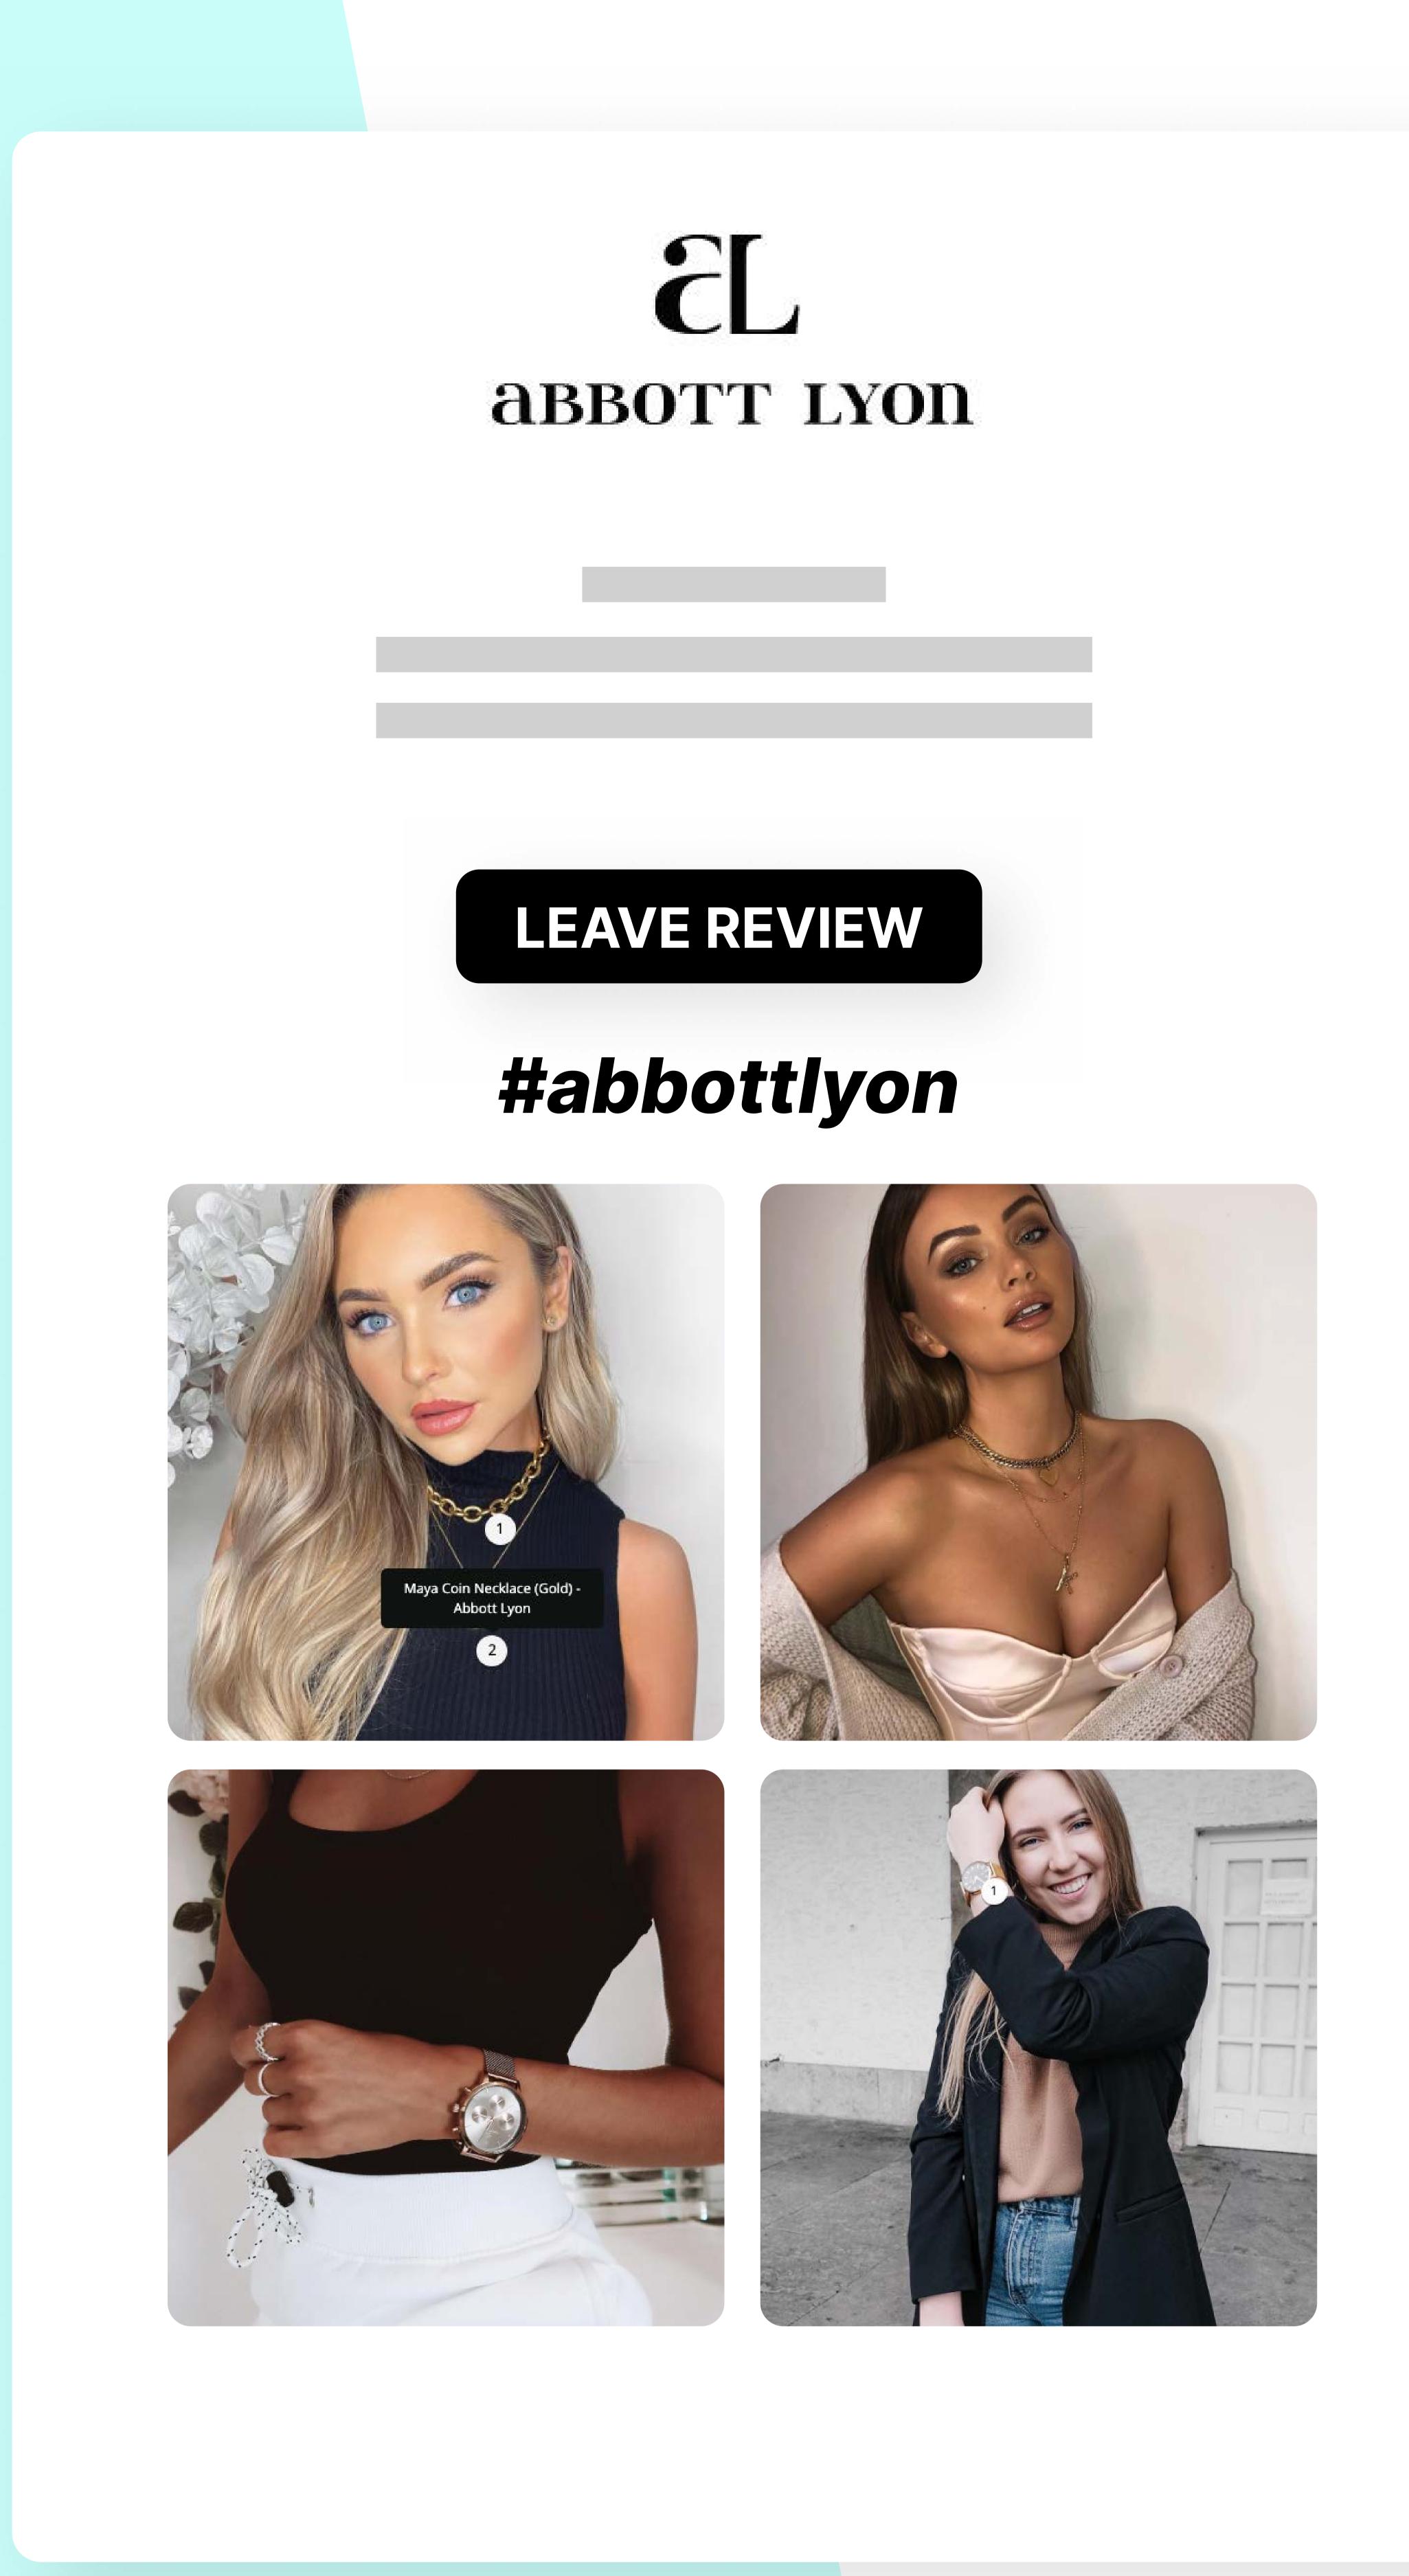

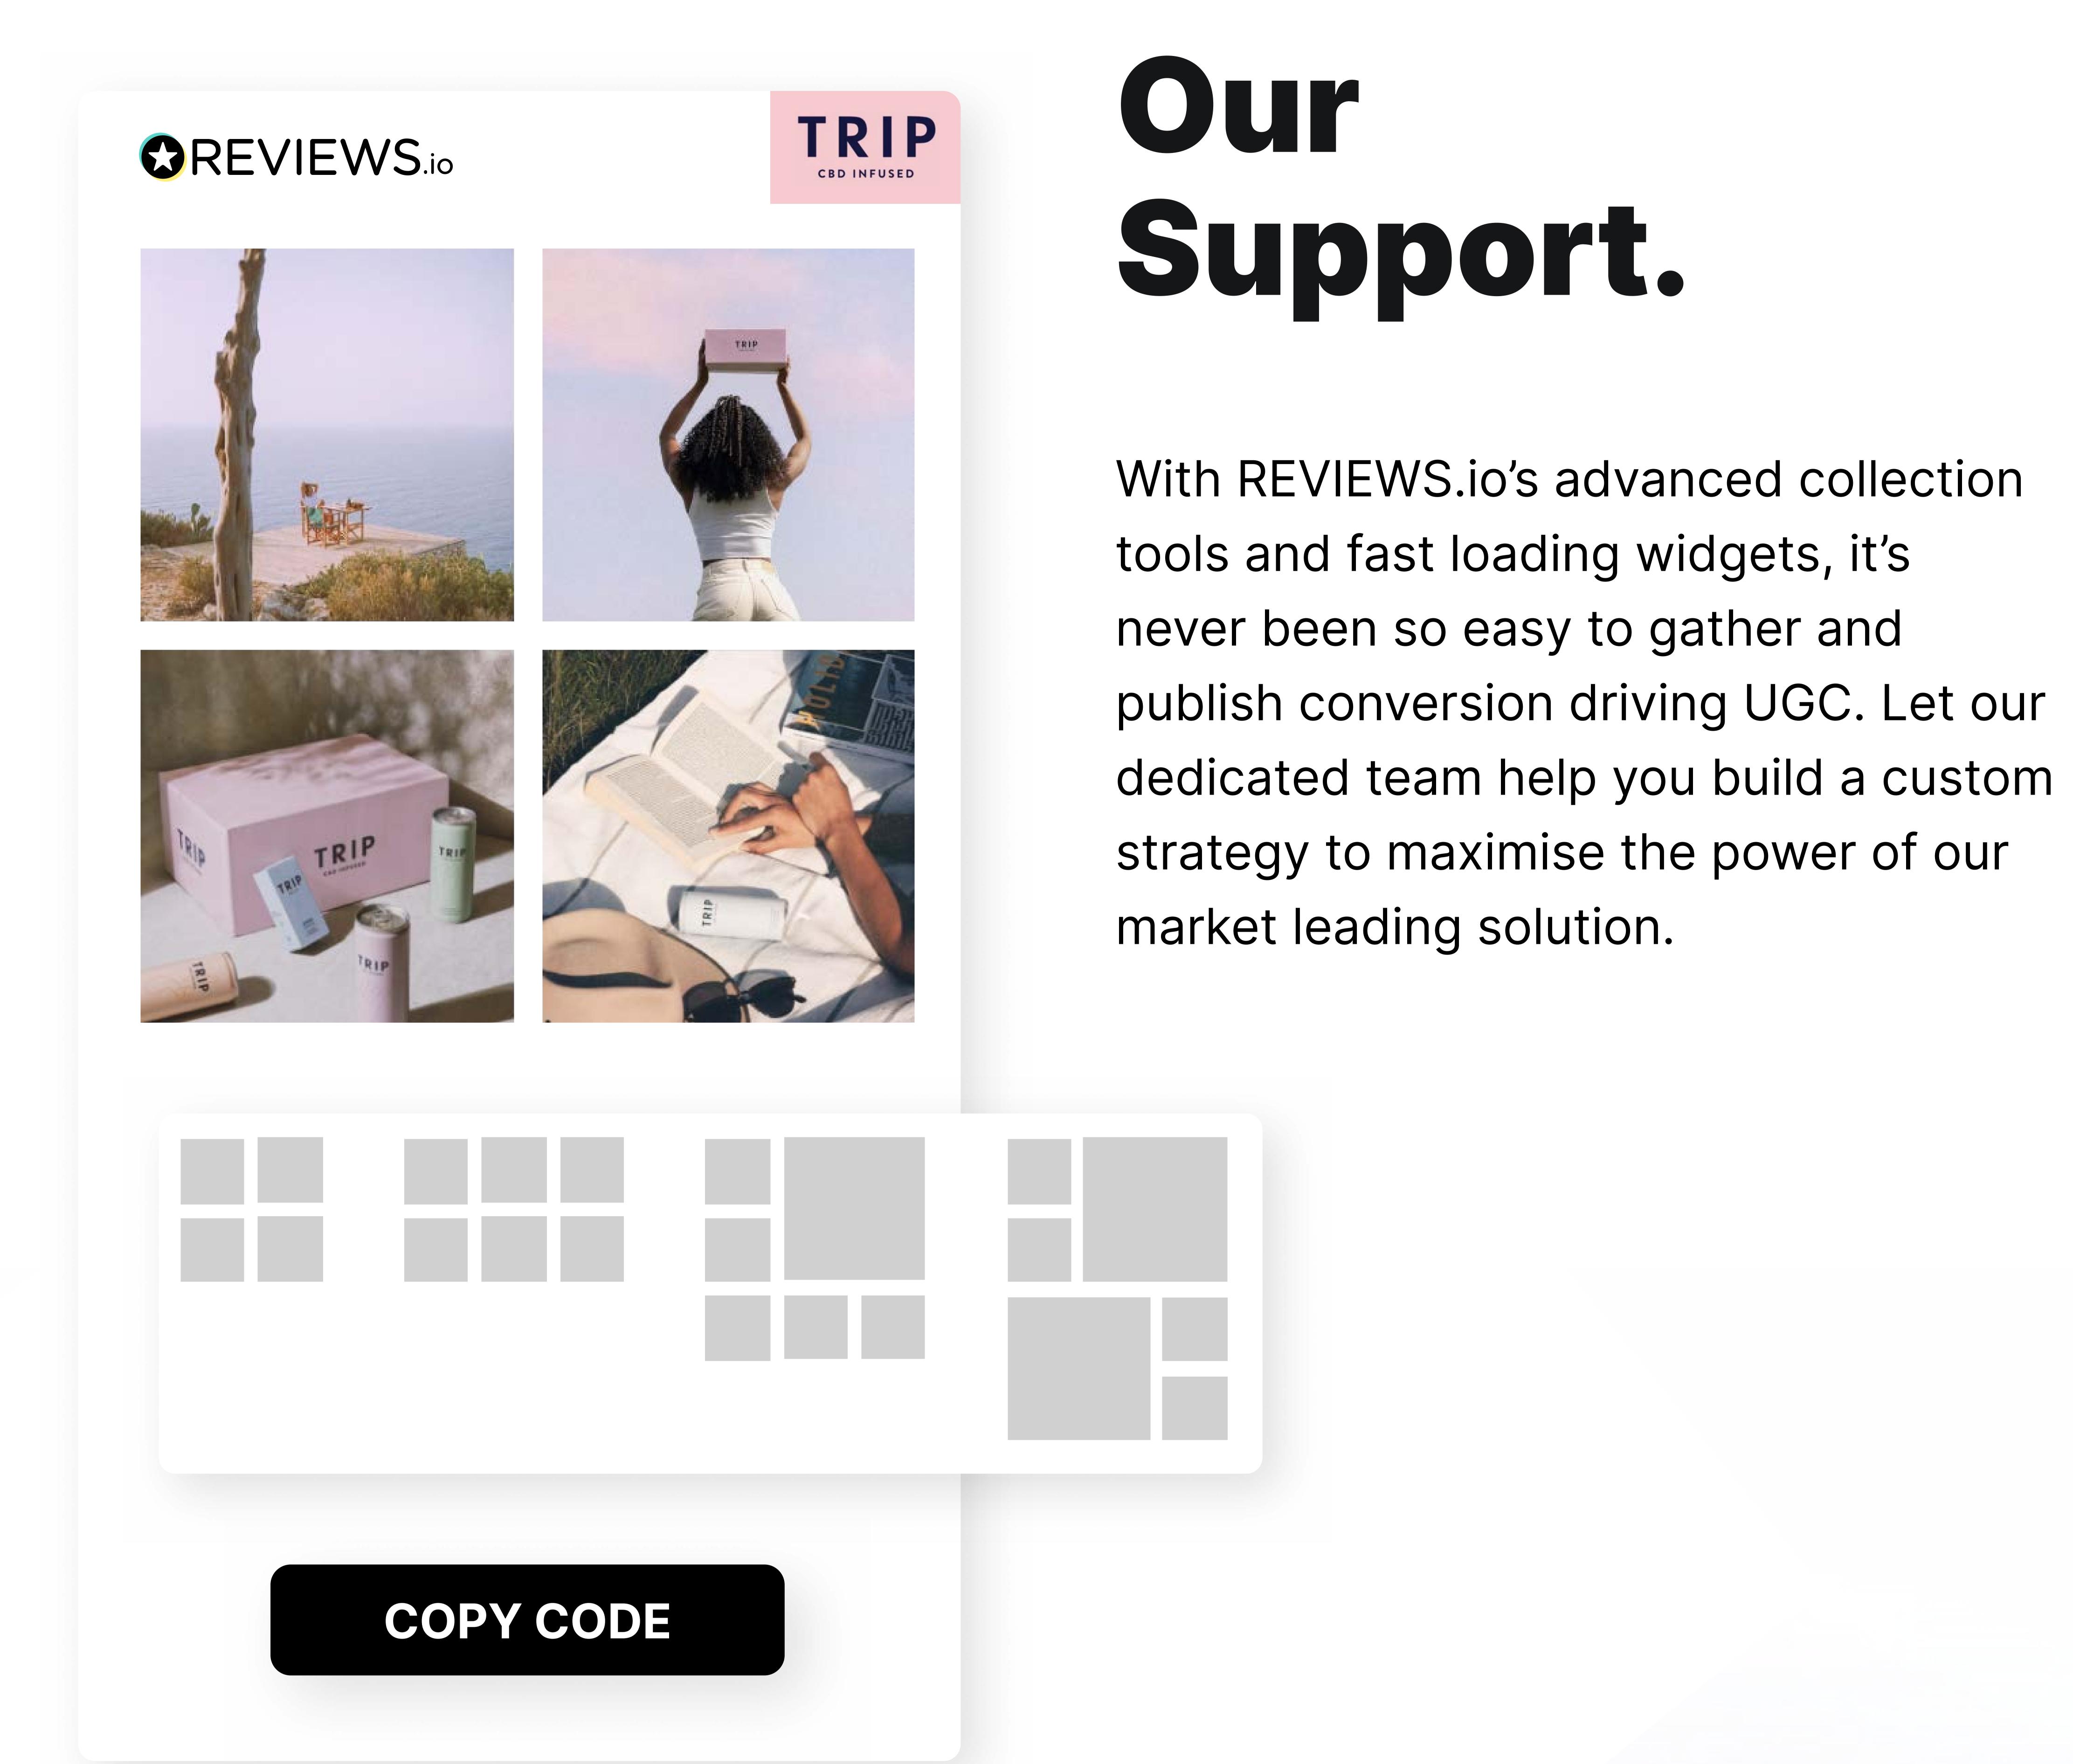

# Enhance email campaigns with UGC.

Klaviyo user? Add shoppable galleries to emails.

Choose from multiple layouts, then drag and drop dynamic content blocks into your templates. From abandoned cart emails to product recommendations, UGC in email marketing drives a 78% higher click through rate.

With REVIEWS.io's advanced collection tools and fast loading widgets, it's never been so easy to gather and publish conversion driving UGC.

The best ads often have to feel native. Collecting UGC content can help fuel your ad content and show potential customers what they want on-site, real people using your product outside of a studio environment.
