

REVIEWS.io

Role Title: Summer Internship - Development team - Girls In Tech

Company Overview:

REVIEWS.io is a customer feedback platform that allows businesses to gather, manage, and market their reviews across multiple channels. Founded in 2012, REVIEWS.io has offices in the UK, the US, Sydney and Berlin, and has helped over 18,000 businesses build trust and increase sales through the power of customer reviews.

Girls in tech is a new internship programme created by REVIEWS.io, aimed at encouraging more women to pursue careers in the technology industry.

Role Description:

We are seeking a female intern to join our development team. The successful candidate will have the opportunity to learn from all of the wider teams within the company (such as sales, marketing and customer support) as well as working with our experienced developers and gain valuable hands-on experience in a fast-paced tech environment. This internship is open to girls who are passionate about technology and eager to learn.

Responsibilities:

- Assist the development team in coding, testing, and debugging software
- Collaborate with team members on a specific project and provide technical support
- Participate in team meetings and contribute to discussions
- Research and propose solutions to technical problems
- Stay up-to-date with emerging trends and technologies in the industry

Requirements:

- Currently pursuing or recently completed a A-levels (or equivalent) a degree in computer science, information technology, or related field
- Or are self taught
- Good programming skills in at least one language (PHP, Javascript, MySQL etc.)
- Ability to work collaboratively in a team environment
- Excellent problem-solving skills
- Good communication skills
- Passion for technology and eagerness to learn

Benefits:

- Hands-on experience in a fast-paced tech environment
- Exposure to the latest technologies and industry trends
- Opportunity to work with experienced developers and learn from their expertise

REVIEWS.io

- Potential for future employment opportunities within the company

Criteria

We encourage applications from female-identifying individuals over 16 and who have a demonstrable interest in working in software development and/or the wider tech industry.

This includes students and graduates of Computer Science BSc (or similar)

A-level Computer Science students (or similar)

Self-taught individuals

To Apply:

To apply, please submit your CV and a cover letter that highlights your qualifications and experience to hr@reviews.io. Please also give a brief explanation of why you are interested in this internship. We welcome all applicants and look forward to hearing from you.
